

College of Medicine Facts

Vision

The University of Central Florida College of Medicine will be the nation's premier 21st century college of medicine—a national leader in education, research and patient care, recognized for supporting and empowering its students and faculty to realize their passion for discovery, healing, health and life, and for its ability to create partnerships to transform medical education and health care.

New Developments

- The College of Medicine was granted provisional accreditation in June 2011 and will be reviewed again October 2012 for a recommendation of full accreditation
- UCF Pegasus Health, the College of Medicine's new faculty practice began treating patients in November 2011
- The College of Medicine began its first Health Leaders initiative with Orlando's Jones High School Medical Arts Magnet program, a partnership designed to increase the diversity of students in medical education and better prepare them to enter the health-care profession
- The Class of 2013 has entered their fourth, and final, year at the College of Medicine, working in partnership hospitals, clinics and other healthcare centers to gain real-world experience and in doing so discover their specialty of choice for their upcoming residencies
- In February 2011, UCF purchased 25 acres of land next to the Health Sciences Campus in Lake Nona for a teaching hospital that will be next door to the medical school
