Lab Technician Position, Full-Time

Dr. Tara Strutt’s lab has an open position for a laboratory technician. This position is in a research laboratory at UCF focused on the regulation of inflammatory and tissue repair responses during respiratory virus infection. The research lab is located at the UCF Burnett School of Biomedical Sciences at the Lake Nona campus.

This is an OPS (non-benefit earning) position, however health insurance may be offered.

Specific duties will include performing modern molecular and immunological assays, working with mouse models, assisting with data analysis, maintaining lab inventories, and performing general laboratory duties. The successful candidate will work on independent research projects as well as assist other lab members pursue the goals of the lab. An ability to positively interact with students is expected.

Position qualification and preferences:
BS or MS degree required with preference for Molecular Biology, Microbiology, Immunology or similar areas of focus. Hands-on experience with diverse aspects of Molecular Biology, particularly qPCR, is required. Experience with tissue culture and immunological assays is preferred. The candidate must have great attention to detail, be well-organized, self-motivated, and function well in a team setting.

To apply, please email a CV/resume along with the contact information for two references to: tara.strutt@ucf.edu.

Review of applications will begin on June 5, 2017.
