

**Master of Science in Biomedical Sciences
Capstone Exam Form**

Student Name / PID: _____

Capstone Title: _____

Completion of a Capstone Exam is a requirement of the MS Biomedical Sciences Program. The exam will be written and oral and is designed to evaluate the students' knowledge of their capstone project.

The Report:

Evaluation of the capstone project requires a written report (in a format of a mini-review manuscript), and a presentation (project defense) in front of the capstone committee. Students may ask for advice and guidance from the project mentor/chair. The average capstone report ranges from 10-15 single-space page in a manuscript format with proper citations. The student's Committee Chair will be responsible for checking the report for plagiarism using iThenticate before the report is shared with the committee. The committee must receive the report one week before time of presentation.

Committee members must rate student 1 – 10 (10 highest – 1 lowest)

Capstone Written Report - Writing Skills

Exam Measure	Rate	Comment
Creativity / Literature data / Factual Knowledge		
Ability to analyze data and form conclusion		

Oral Exam:

The oral presentation will take place in the form of a 30-40 min seminar and will be followed by questions and a discussion.

Oral Defense of Capstone Report

Exam Measure	Rate	Comment
Communication Skills / Presentation		
Ability to present data/ follow analysis		

Ability to answer questions to demonstrate command of knowledge

**Master of Science in Biomedical Sciences
Comprehensive Exam Form**

Student Name: _____

PID: _____

Completion of a Comprehensive Exam is a requirement of the MS Biomedical Sciences Program.

The Capstone exam is designed to assess students' command of knowledge in Biomedical Sciences and relevant applications. Students will have to pass 7 out of the 10 comprehensive questions.

The Capstone exam chair will solicit questions from each committee members. The Capstone committee will ask the student questions to evaluate the student's retention and understanding of fundamental knowledge in Biomedical sciences and capstone project. The capstone chair must rank the students answers to at least 10 questions to document the students' performance in the Comprehensive exam.
