Lab Technician in Dr. T.M. Strutt’s Lab, Full-Time or Part-Time [NEW POSITION]

A technician position is open in a UCF research laboratory focused on the regulation of inflammatory and tissue repair responses during respiratory virus infection. The Strutt Lab is located in the Burnett School of Biomedical Sciences Building on the Lake Nona Health Sciences Campus.

Primary duties will include animal genotyping, inventory maintenance, and general laboratory duties. Participation in ongoing research is encouraged and involves modern molecular and immunological assays.

Position qualification and preferences:

A BS or MS degree in Molecular Biology, Microbiology, Immunology, or similar areas of focus is required. Hands-on experience with diverse aspects of Molecular Biology, particularly qPCR, is required. Experience with animal husbandry, sterile tissue culture, and immunological assays is preferred but not required. The candidate must have great attention to detail, be well-organized, self-motivated, function well in a team setting, and have a desire to learn.

This is an OPS (non-benefit earning) position, however health insurance may be offered.

To apply, please email a CV/resume along with the contact information for two references to: tara.strutt@ucf.edu.

Review of applications will begin immediately.
