

Scholarship and Research Opportunity for Life Sciences Transfer Students!

The **T**ransfer-Student **R**esearch & **I**ntegration **P**rogram (**TRIP**) is a 2-year scholarship program (up to **\$8,000**) for Biology, Biotechnology, and Biomedical Sciences majors transferring to UCF with an A.A. degree. TRIP's goal is to create competitive graduates for life science workforce positions or graduate programs by having students (1) engage in a structured research experience, (2) integrate into the scientific and UCF communities, and (3) develop the professional skills necessary for success.

RESEARCH - Receive an immersive experience by conducting original research under the guidance of a faculty mentor.

INTEGRATION - Become a vibrant member of the UCF community, the community of undergraduate researchers, and the global community of life scientists.

PROFESSIONAL DEVELOPMENT – Improve the critical skills necessary for success by participating in workshops and presenting your own research at scientific conferences.

Let TRIP help you succeed!

For more information contact us at trip@ucf.edu or visit: <https://sciences.ucf.edu/biology/trip/>

Priority Deadline: June 1st, 2020
