

BSBS 3RD ANNUAL NEW FACULTY WELCOME AND KICKBALL TOURNAMENT

The Burnett School of Biomedical Sciences (BSBS) faculty, staff, and graduate students enjoyed a great afternoon of food, family, and fun at the 3rd Annual BSBS New Faculty Welcome and Kickball event on November 5, 2016. Everyone gathered at Chisolm Park in St. Cloud where the Faculty Vs Student Kickball Tournament provided plenty of entertainment and was a great success. This event was an awesome opportunity for faculty, staff and students to come together outside of the lab and classroom setting. As shown in these pictures, there was an abundance of smiles and laughter throughout the Event.

Kelvin Chaplin (Far Right)

The annual kick ball tournament was thrilling, as this year the students were victorious over the faculty with a game score of 9-7. Graduate Student, Jose Alvarez, said that this was a great opportunity for him to meet faculty and eat a delicious meal, but it also served as a fun stress reliever to play kickball with his classmates. Family members of all ages were on hand to support this event and also participated in the kickball event this year which made it so special.

Smith Family

Anthony Smith (Biomedical Equipment Specialist) said, “My family and I had a wonderful time at the annual kick ball competition. This year was our first experience, and we were not disappointed. The weather, location, and food was top notch. Most of all, the friendly yet competitive fellowship amongst the students and faculty was truly a moment we will never forget. Thank you to all the organizers of this event. We look forward to next year!”

The Event Organizer Sarah Gitto says she will become a UCF Alumni when this event rolls around next year. She hopes that this event will grow and become a BSBS tradition where former graduates can return each year to fellowship with fellow colleagues, faculty, graduate students and everyone who contributes to the success of the Burnett School of Biomedical Sciences!
