

**What is it:** An online learning management system (LMS) where you can post and manage course content and resources, manage assignments and grades, and interact with students through discussions and announcements.

**Where is it:** <http://webcourses.ucf.edu>

**How to use it:**

- Work with Ed Tech staff members to design and structure the content for your course
- Work with your coordinator to get new content posted in your course

**Possible applications:**

- Publish course syllabus and schedule
- Post announcements that get pushed to students' email
- Organize course content by date and time in the course calendar or by module
- Access the class roster
- Maintain an online grade book
- Online assignment submissions and grading
- Formative quizzes
- Review Panopto lecture recordings
- Access to course LibGuides
- Discussion board monitoring and collaboration
- Group work monitoring and collaboration
- Online meetings and conferences with students
- Online document collaboration using Google Docs
