

# Changes to UCF COM Med Ed Classroom Computers

## 2016 - 2017

---

### Windows 10

- The operating system on the classroom computers has been upgraded from Windows 7 to Windows 10.
- Same functionality as previous versions of Windows with a slightly different look and feel
- Improved support for video playback

### Office 2016

- Minor changes from Office 2013 to Office 2016
- PowerPoint slides created in previous versions can be opened and saved with no known problems
- PowerPoint has improved support for video playback

### TurningPoint Cloud

- TurningPoint Cloud has been installed and replaces the previous version of TurningPoint.
- You will be required to login with your Turning Account when opening PowerPoint files. If you bypass this step, TurningPoint will not work.
- For your convenience, unique Turning Accounts have been created for each classroom if you cannot remember your password or have not yet created a Turning Account. These accounts will be posted on each classroom lectern.

### Lecture Capture (Panopto)

- Panopto will be scheduled to automatically record each 1 hour session per the module schedule in Webcourses.
- If you prefer to not have a session recorded, please contact a member of Ed Tech
- Also, if the classroom location or schedule changes, please contact a member of Ed Tech
