

Important!

Do Not Delay!

Immunization Information **REQUIRED** for you to proceed with registration at UCF COM

The following page lists the immunizations required by UCF COM. UCF COM will accept the following as satisfactory documentation of proof of vaccination:

1. the official State of Florida Immunization form, issued by local health departments and physicians' offices, or
2. documentation from your physician.

An official stamp from a doctor's office, clinic or health department **and** an authorized signature must appear on the official document(s) submitted or your immunizations will not be approved. **Please note** – there are some vaccines that require a **lab report** copy as proof of vaccination. Please do not hesitate to contact the Office of Student Affairs at (407) 266-1353 with any questions about immunizations.

RETURN ALL DOCUMENTATION TO:
Office of Student Affairs
UCF College of Medicine
Health Sciences Campus at Lake Nona
6850 Lake Nona Boulevard, Suite 115
Orlando, Florida 32827
(407) 266-1353
FAX: (407) 266-1399

Obtaining proof of immunizations may be a time-consuming process, so start now!

Registration at UCF COM will be blocked until documentation of the following immunizations is received and accepted. REQUIREMENTS ARE SUBJECT TO CHANGE WITHOUT PRIOR NOTICE BASED UPON RECOMMENDATIONS FROM THE CDC. You will be notified of changes as soon as practical.

Immunizations REQUIRED for ALL Students.		
	REQUIRED IMMUNIZATION	REQUIRED DOCUMENTATION
1. Measles, Mumps, Rubella (MMR) COMBINED Documentation of two MMR vaccines (at least 28 days apart) after 12 months of age.	MMR vaccine Dose One	Vaccine Document Copy
	MMR vaccine Dose Two	
OR Measles, Mumps, Rubella (MMR) SEPARATE		
2. Rubella (German Measles) Serologic documentation of a positive Rubella immune titer OR immunization with live Rubella or MMR vaccine after 01/01/80 OR two immunizations with live Rubella or MMR after 12 months of age.	Rubella Titer (IgG Blood Test)	Lab Report Copy
	OR Two live Rubella after 01/01/80	Vaccine Document Copy

Rubeola (10 Day Measles) Serologic documentation of a positive Rubeola immune titer OR two immunizations with live Rubeola OR two MMR vaccines after 12 months of age.	Rubeola Titer (IgG Blood Test)	Lab Report Copy
	OR Two live Rubeola	Vaccine Document Copy

Mumps Serologic documentation of a positive Mumps immune titer OR immunization with at least two doses of live Mumps or MMR vaccine after 12 months of age.	Mumps Titer (IgG Blood Test)	Lab Report Copy
	OR Two live Mumps vaccines	Vaccine Document Copy
3. Hepatitis B A series of three doses of vaccine are required. The vaccine is usually administered as a three-dose series on a 0-, 1-, and 6-month schedule. The 2nd dose should be given 1 month after the first dose; the third dose should be given at least 2 months after the second dose and at least 4 months after the first dose. This requirement is not complete until there is serologic documentation of a positive (quantitative) Hepatitis B surface antibody titer following completion of the Hepatitis B vaccination series of three (3) injections.	Surface Antibody Titer (IgG) (quantitative)	Lab Report Copy
	OR Hepatitis Vaccine Series AND	Vaccine Document Copy
	Surface Antibody Titer (IgG) (quantitative) 60 days after vaccine series	Lab Report Copy
4. Tetanus/Diphtheria/Pertussis (Tdap) Documentation of Tetanus/Diphtheria/Acellular Pertussis booster.	Tdap (Adacel) vaccine	Vaccine Document Copy
5. Varicella (Chicken Pox) Documentation of a positive Varicella titer OR two Varicella immunizations (given 4 to 8 weeks apart). This requirement is satisfied only by a positive titer or the vaccine series. A history of chicken pox DOES NOT satisfy this requirement.	Varicella Titer (IgG Blood Test)	Lab Report Copy
	OR Varicella vaccine series	Vaccine Document Copy
6. Tuberculin Skin Test (TST/PPD) Documentation of two-step testing: Documentation of two Mantoux skin tests within 12 months preceding enrollment at UCF COM. The second test should be administered 1 – 3 weeks after the first test. <u>However, if you have had a TST done within the last twelve months, only one TST needs to be done (even if it is more than 1 – 3 weeks after the first test).</u> If there is a history of positive PPD: Documentation of a current chest x-ray and the tuberculosis screening questionnaire is required for all persons with a history of a positive PPD skin test (within past twelve months). Alternatively, Quantiferon-Gold TB test is also acceptable for those students with a history of a positive PPD. The questionnaire can be found at http://med.ucf.edu/administrative-offices/student-affairs/student-services/enrollment-requirements/ .	Two TSTs (within the last 12 months)	Skin Test Document Copy
	If positive PPD (current or positive history)	Radiology Report AND Screening Questionnaire OR Vaccine Document Copy
	Current chest x-ray (within last 12 months) OR Quantiferon Gold TB test	
7. For students aged 21 and younger, or with one of the conditions listed below - Meningitis Persons aged 21 years or younger should have documentation of receipt of a dose of meningococcal conjugate vaccine not more than 5 years before enrollment. If the primary dose was administered before the 16th birthday, a booster dose should be administered before enrollment. Meningococcal vaccine is also recommended if you have a complement component immune deficiency, lack of a spleen, HIV, or for travel to areas of the world with high prevalence of meningococcal disease.	Meningococcal conjugate vaccine (MCV4)	Vaccine Document Copy
