

# College of Medicine Facts

## Vision

The University of Central Florida College of Medicine will be the nation's premier 21st century college of medicine—a national leader in education, research and patient care, recognized for supporting and empowering its students and faculty to realize their passion for discovery, healing, health and life, and for its ability to create partnerships to transform medical education and health care.

## New Developments

- The College of Medicine was granted full accreditation in February 2013 by the Liaison Committee on Medical Education, which accredit all medical schools in the United States and Canada
- In 2016, when the college reaches full enrollment, it will be educating 480 doctors-in-training a year
- UCF Pegasus Health, the College of Medicine's faculty practice, offers primary and specialty care under one roof to patients across the community
- 97% match rate for M.D. program graduates; selected areas of specialty for include primary care, emergency medicine, diagnostic radiology, pediatrics, obstetrics-gynecology, surgery and psychiatry
- The college's Burnett School of Biomedical Sciences conducts cutting-edge medical research focusing on global health concerns —cancer, cardiovascular, neurodegenerative, and infectious diseases.
