

# Enrollment Policy

---

Students enrolled in the College of Medicine are not permitted to enroll in courses or degree programs in any other school/college of the university or in any other institution of learning without the consent of the dean of the College of Medicine. Requests to enroll in dual degree programs are handled on an individual basis and may be permitted with approval of the committee overseeing each program involved. Maintenance in that program related to academic performance may be reviewed as appropriate by the Student Evaluation and Promotion Committee. Specific requirements for joint degree programs may be found in the M.D. College of Medicine Student Catalog.
