

UCF

College of Medicine

LOOK BOOK 2018

Excellence in Academics

Thanks to our innovative curriculum, our M.D. students score in the top quartile nationally in all measures of performance and have a match rate higher than the national average.

High-Tech Learning

Technology isn't just a new, fun gadget for us. We use cutting-edge tools to teach today's learners in a new, more engaging way.

Campus Beauty

Our modern campus features natural areas, state-of-the-art lab and team learning spaces, and a 98 percent digital library that provides information any time, any place, on any device.

Finding Better Treatments

We partner with hospitals, non-profits and even college football to find better treatments for diseases like breast cancer.

Research Excellence

Our Burnett School of Biomedical Sciences includes faculty researchers and about 3,000 undergraduate and graduate students. Our research focus: treatments for the conditions that plague humanity including cardiovascular disease, cancer, tuberculosis and Alzheimer's.

We're Knights!

The College of Medicine is a big part of UCF – one of the nation's largest universities with a growing national identity.

UCF College of Medicine Mission

INSPIRE. LEAD. INNOVATE.

The University of Central Florida College of Medicine educates and inspires individuals to be exemplary physicians and scientists, leaders in medicine, scholars in discovery, and adopters of innovative technology to improve the health and well-being of all.

WE CARE For PATIENTS

Faculty physicians provide care to the entire community at two locations of UCF Health, where we offer primary and specialty care under one roof.

UCF ♦ Health
College of Medicine Practice

Community Service

Our mission is to improve health for everyone. Students and faculty care for those in need at a variety of locations across our community and the world. Our partnership with the McCormick Research Institute began “Horses and Heroes,” an equestrian therapy program for veterans suffering from combat-related injuries.

Campus Life

We live shared values like service, diversity, innovation and a commitment to excellence. The College of Medicine's goal is to help each individual make their dreams a reality.

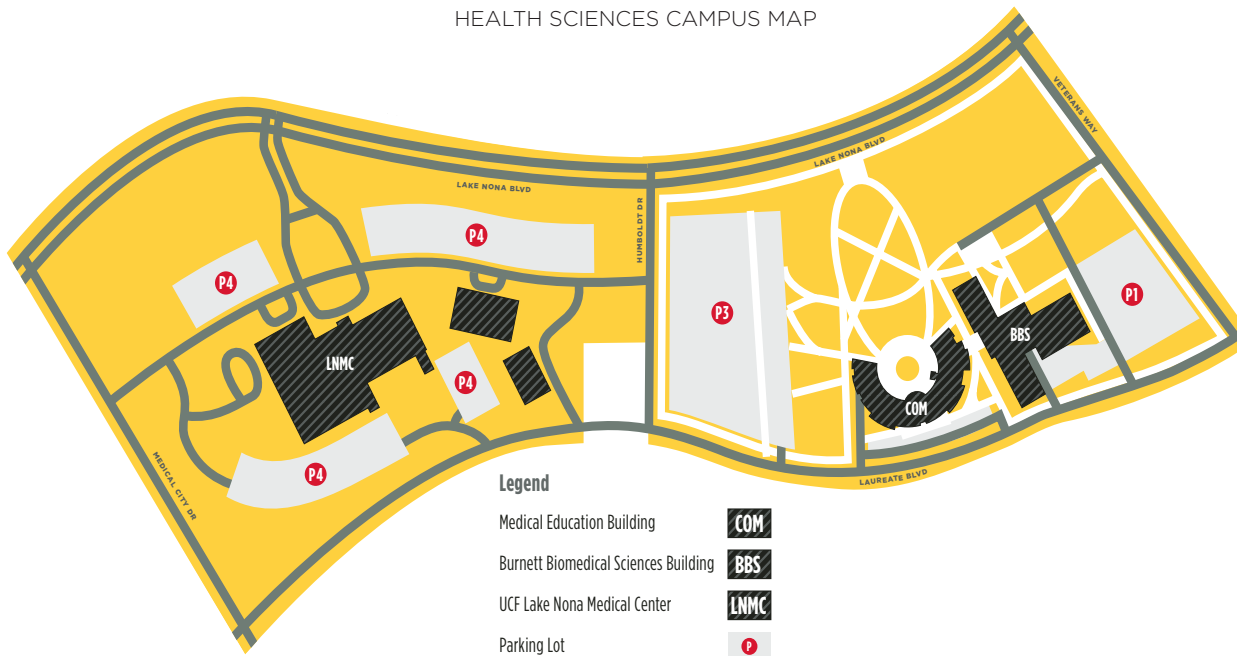

NEW

Ground-Breaking

HOSPITAL

We're building a new university hospital next door to the medical school through a partnership with Hospital Corporation of America. UCF Lake Nona Medical Center is set to open by 2021.

HCA NORTH FLORIDA DIVISION

Our Footprint is Growing

UCF has created an Academic Health Sciences Center at Lake Nona that will bring many health-related disciplines to one campus. That means students in programs like nursing, medicine, social work, athletic training and physical therapy will train together on better ways to care for patients.

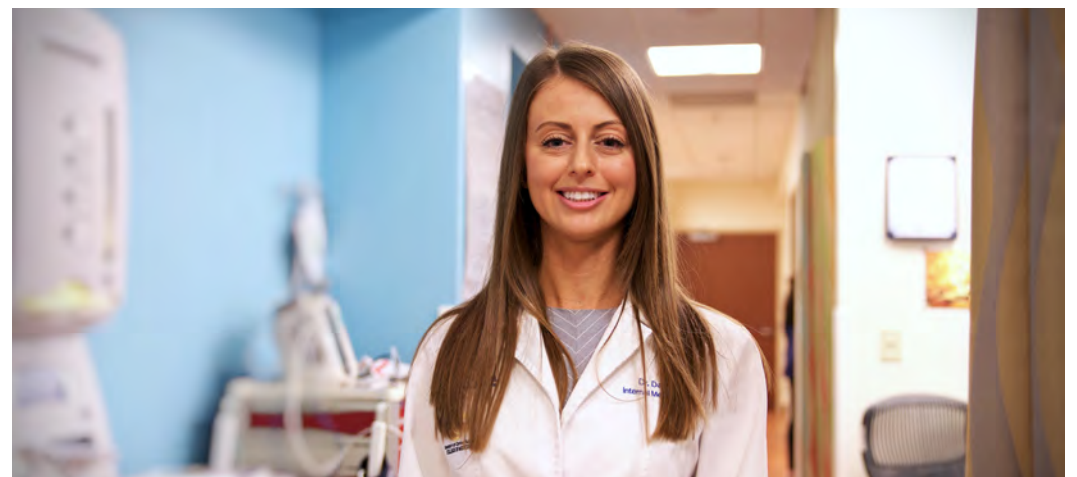

Bringing More Doctors to Our Community

We're working with Hospital Corporation of America to build needed residency and fellowship programs to help address Florida's physician shortage. Our graduate medical education training programs include internal and family medicine, psychiatry, OB-GYN, surgery, neurology and transitional year.

Orlando, a Prime Location

Central Florida is a thriving, diverse community with natural beauty and lots of activities. Here you have easy access to both coasts, the world's most popular theme parks, and a prime location for outdoor activities and events. Our emerging Medical City at Lake Nona includes a growing biosciences cluster, a sporting district including the USTA's New Home of American Tennis and growing residential, business and retail locations.
