

Emergency Medicine

- Required:
 - AI Emergency Medicine at UCF: Perform at either site with an accredited EM program. Get a SLOE (Standardized Letter of Evaluation).
 - Second EM rotation: Can perform here or away. Choose a site with an accredited EM program to get another SLOE.
- Highly Recommended:
 - Critical Care AI: Choose any subset of critical care.
 - EM based research: This could be done as a FIRE project or any other time during school. Again, choosing a mentor from an accredited EM program will give you most bang for buck. Your goal should be a national presentation or peer-reviewed publication. This does not have to be a rotation.
 - Other high yield rotations: Pediatric EM, Ultrasound, Radiology, Anesthesia.
- Recommended:
 - Consider a 3rd EM rotation from an accredited program especially if you have geographic limitations, other circumstances that may make things more complicated. Discuss this with advisor. Get SLOE.
 - Other electives: Cardiology, Orthopedics, Ophthalmology, ENT, Dermatology, EKG.
- Other:
 - Become active in EM interest group.
 - Join ACEP/EMRA.
 - Consider going to EM conference: FCEP has a local weekend conference in August each year in which all FL residencies show up and compete in CPC.
 - SAEM, ACEP, AAEM all have national as well as regional conferences.
- Example Schedule:
 - MAY/JUNE: SAEM NATIONAL CONFERENCE
 - JUNE/JULY: UCF EM AI
 - JUNE/JULY: ELECTIVE, STEP II, RESEARCH
 - AUGUST: FLORIDA ACEP CONFERENCE
 - AUGUST/SEPT: 2ND EM ROTATION
 - SEPT/OCT: RESEARCH, CRITICAL CARE
 - OCT: ACEP NATIONAL CONFERENCE
 - NOV/DEC: INTERVIEWS, ELECTIVE, RESEARCH
 - JAN: FINISH INTERVIEWS
 - FEB: AAEM NATIONAL CONFERENCE
 - FEB/MAR: ELECTIVES
 - MAY: GRADUATION
