Subject: Reminder on COVID19 Precautions
Date: Friday, August 20, 2021 5:43:02 PM

Dear students,

We have already had several individuals in our UCF COM community test positive for COVID since our return to campus. Given the current surge in cases throughout our local area, we must remain vigilant against this pandemic to limit the spread and severity of COVID infections. In addition to strongly recommending being vaccinated and wearing masks, it is important each of you take appropriate action if you develop symptoms, are exposed to someone with COVID, or test positive for COVID yourself. Enclosed is a simple flow diagram of the actions you need to take in each of these situations. Failure to comply with this flow diagram or the directions of the UCF COVID hotline places you, your classmates, and everyone else in the UCF COM community at risk, and may be grounds for a professionalism citation.

We are all in this fight together, so let's gear up and Charge On!
